

Appendix

World Masters Games 2027 Kansai Canoe Slalom Rehearsal Tournament (and Tokushima Prefecture Championship) Wildwater SUP Category Special Regulations

1. About the Board

- Boards must be inflatable only.
- There are no restrictions on length and width.

2. About the Leash

- If using a leash, only a waist-type quick-release leash is permitted. Participating without a leash is also acceptable.
- (If it is determined that the quick-release mechanism does not operate properly while wearing a bib, the competitor will be disqualified.)

3. About Life Jackets

- Buoyancy must be 6.12 kg or more. (Subject to the same inspection as other competitions.)

4. During the Competition

- Competitors must be standing on both feet at the start and finish lines. Doing otherwise will result in disqualification. However, the forward/backward orientation of the board at the finish line does not matter.
- Paddling while kneeling or sitting during the competition is fundamentally prohibited, except to avoid danger. If a competitor is deemed to have intentionally paddled more than necessary in these positions, they will be disqualified.
- Re-boarding is allowed, but if the competitor is separated from the board more than necessary or is otherwise judged unable to continue the competition, they will be disqualified.

5. Other rules shall conform to the Competition Rules of the Japan Canoe Federation.
